

The 2026 Shariah Financial Resilience Checklist

A Professional Blueprint for Families and SME Owners to Protect, Grow, and Transfer Wealth.

*"Wealth is an **Amanah** (trust). True resilience is not found in the amount of money you have, but in the structural integrity of your financial architecture."*

— **Hairul Anuar Bin Sulaiman, Associate Shariah RFP**

Phase 01: The Defensive Shield (Protection)

Goal: Ensuring your family's lifestyle is unshakable during a crisis.

Emergency Liquidity: Do you have 6–12 months of expenses in a Shariah Money Market fund?

Human Capital Value: Is your Takaful coverage at least 10x your annual income?

Liability Deflection: Does your medical coverage include an inflation-adjusted room & board benefit?

Debt Audit: Have all conventional loans been reviewed for Shariah-compliant refinancing options?

Phase 02: The Growth Engine (Investment)

Goal: Outpacing inflation through disciplined, ethical compounding.

- ☐ **Asset Allocation:** Is your portfolio diversified across Equities, Sukuk, and Cash proxies?
- ☐ **Open-Architecture Advantage:** Are you utilizing best-in-class funds from at least 3–5 different fund houses?
- ☐ **Shariah Integrity:** Have all your investments passed the 2026 SC Shariah Screening filters?
- ☐ **Rebalancing Discipline:** Has your portfolio been rebalanced to its target risk-weighting in the last 6 months?

Phase 03: Legacy Continuity (Succession)

Goal: Ensuring your wealth remains a source of Barakah for the next generation.

- ☐ **Hibah Integration:** Do you have a conditional gift (Hibah) attached to your Takaful to prevent frozen assets?
- ☐ **Wasiyah (Will):** Is your 1/3 allowable bequest clearly designated for noble causes or non-heirs?
- ☐ **Drawdown Strategy:** Do you have a 3-bucket strategy (Immediate, Intermediate, Growth) for retirement income?
- ☐ **Faraid Awareness:** Have you calculated the potential inheritance distribution to identify gaps for your spouse?

The Final Step: Your Resilience Audit

A checklist is the "what," but an audit is the "how." If you checked fewer than 8 boxes, your financial architecture may have structural gaps.
